

CUSTOM HOMES

SOLAR SOLUTIONS CUSTOM HOMES IS OUR *PREMIUM DESIGN SERVICE*, WE CAN DESIGN YOU A CUSTOM HOME TO SUIT YOUR SITE, BUDGET AND LIFESTYLE

A custom home is specifically designed to work with your sites microclimate, optimising the homes orientation whilst capturing any potential views. Once we have researched and visited your site we can design a home with minimal site impact and maximum energy efficiency.

Your new home will be modelled in 3D showing you the way the home works on the site as well as selecting colours and materials with you. We can design the home to suit the look that you want, a home that will be healthy and comfortable to live in all year round with minimal energy use. We also have a range of sustainable products that we can supply and deliver to your site at better than trade rates (Please refer to our products brochure).

Solar Solutions also has a range of Town planning packages for multi-unit developments, these packages offer a complete services that will guide you through the planning process.
